Front-End   JavaScript, React, Tailwind CSS, Bootstrap, Ant Design, Shadcn/ui, Next.js, Astro, Redux
Back-End   Node.js, Express, MongoDB, Fastify, Bun
Tools   REST APIs, Git, GitHub, JSON, Postman, Profiler, Lighthouse, Redux
SOFT SKILLS   Problem Solving, Team Collaboration, Time Management, Adaptability
Languages   Tamil, English

EXPERIENCE

Software Engineer - Trainee   May '25 — Sep '25
NUBIZNEZ PVT LTD   COIMBATORE, India
Developed responsive, high-performance web interfaces using React.js, HTML, CSS, and JavaScript. Collaborated with designers and backend teams to deliver pixel-perfect, mobile-first UI integrated with REST APIs, while ensuring accessibility, performance optimization, and clean code through agile workflows.
Tech Stack: HTML5, CSS3, JavaScript (ES6+), React.js, Git, VS Code, Figma, Chrome DevTools.

PROJECTS

TheBusStand.com - Bus Booking Portal (Company Project) Link
- Technologies Used: React, Redux, Tailwind CSS Developed a bus booking platform featuring route search, booking, and ticket management. Designed a responsive UI and implemented optimized state management to ensure fast, smooth performance across devices.

CRM for TheBusStand (crm.thebusstand.com) (Company Project) Link
- Technologies Used: React, Redux, Ant Design, Tailwind CSS Built a customer relationship management system for thebusstand.com to manage users, bookings, and services. Designed a clean, responsive interface to streamline operations and enhance usability for admin and user roles.

PowerBI Cashflow Application (Internal Project)
- Developed a role-based cashflow management application using React, Redux, Ant Design, and Tailwind CSS that displays assigned projects for users while providing admin controls for user and project management. Designed a responsive, intuitive interface to streamline project tracking and improve financial workflow efficiency.

Grosy- E-commerce Web App Link   Feb '25
- Built a responsive e-commerce web app where users can browse products, add to cart, and place orders with a smooth checkout flow. Implemented secure authentication, and role-based access for customers and sellers. Enabled sellers to manage products and inventory through a dedicated dashboard.

Coffee Day - Digital Menu Website Link   Dec '24
- Built a responsive digital menu website for a café with a clean, modern interface showcasing café details and categorized menu items. Enabled customers to browse items, view descriptions, and submit feedback through an interactive form. Optimized for seamless performance across devices to enhance engagement and accessibility.

RC World - Porsche Link   Nov '24
- Built an animated advertisement webpage for the Porsche brand featuring smooth transitions, dynamic effects, and a sleek modern design. Optimized for responsive, immersive user experience across devices.

EDUCATION

Bachelor of Science in Computer Science, Government Arts College   Jan '21 — Jan '24
                                                                              Coimbatore, India
